WIRELESS

KEY FEATURES

3 YEAR WARRANTY

HIGH QUALITY AUDIO THROUGH DSP

The power of Fusion's Digital Signal Processing (DSP) enables the optimization of Fusion speakers in each audio zone on your vessel. Our system approach ensures every step of the audio chain is optimized through calculations by our engineers to deliver a technically superior listening experience – without the need for you to have a technical understanding. From the kick drum to your eardrum Fusion DSP reproduces your music the way the musicians intended.

WORLD'S FIRST MARINE WI-FI STEREO

Wi-Fi audio streaming delivers higher quality audio through Wi-Fi's exceptionally faster data transfer rate in comparison with Bluetooth. PartyBus over Wi-Fi allows for quick and simple network setup.

FUSION-PARTYBUS

The power of PartyBus kicks in when you add more PartyBus enabled stereos to your entertainment system. Each additional PartyBus enabled stereo gives you the option to join Party Mode and play the same perfectly synced audio source through the entire vessel. Switch into Personal Mode and listen to available audio sources from your stereo in the area of your choice without disrupting Party Mode in the other areas of the vessel.

TOUCHSCREEN DISPLAY

Control your entertainment with the touch of a finger on the optically bonded touchscreen display. Simply tap the screen to pause and play, or swipe through your playlist to your favorite song – the future has arrived.

OVER-THE-AIR SOFTWARE UPDATES

Over-the-air software updates are now available from your smartphone or compatible device via the free Fusion-Link™ app, making the Apollo Series intelligently simple and always up to date.

FUSION-LINK™ CONTROL

The Fusion-Link remote control app gives you the flexibility to control your onboard entertainment from anywhere on the boat, with multiple connectivity options available:

- NMEA 2000 network via a partnered Multi-Function Display.
- Ethernet via a partnered Multi-Function Display.
- Wi-Fi via a wireless Ethernet router or wireless network.
- NRX Series remote via a stand-alone **Fusion Remote Control Network**.
- **Bluetooth Wireless Technology** via a compatible Apple or Android device.
- **ANT** via a compatible Garmin watch with the Fusion-Link Lite app.

TRUE-MARINE PHILOSOPHY

Fusion's True-Marine design philosophy stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real world boating applications, our customers are assured that the equipment they fit into their vessel will deliver quality entertainment season after season.

SPECIFICATIONS

Display	Display Size	4.3"	
	Capacitive Touch Panel (with swipe control)	Yes	
	LCD Color Display	Yes	
	Operating System	Fusion	
General	Sources	AM / FM / Bluetooth / Wi-Fi audio streaming / PartyBus / digital optical input / USB audio / AUX x 2 / UPnP / MTP / SiriusXM-Ready (for USA only, requires optional SiriusXM connect vehicle tuner) / DAB+ ready (available in Europe and Australia only, does not support traffic and weather)	
	Digital Signal Processing (DSP)	Yes	
	Speaker Presets (easy to tune)	Yes	
	FUSION-Link Control (Wireless)	Yes	
	PartyBus Technology	Yes (receive and broadcast - wired or wirelessly)	
	Bluetooth Wireless Technology	Bluetooth music streaming, music control (via devices compatible with A2DP/AVRCP 1.3 Bluetooth protocols).	
	SiriusXM-Ready™	Yes - with advanced features	
	Wi-Fi	Yes	
	ANT	Yes	
	NMEA 2000 (Control via MFD - Fusion-Link)	Yes	
	Works With NRX Remotes	Yes	
	Digital Optical Input (SPDIF)	Yes	
	Fits DIN Cut-Out	Yes	
	Water Resistance (IPX rating)	IPx7 from the front panel when installed correctly	
	Internal Amplifier	Class-D	
	Power Output	Peak Power	280 W max
	Languages	Multi-Language User Interface	English / French / German / Spanish / Dutch / Italian
	Connections	Auxiliary Inputs	2 x RCA inputs (AUX1, AUX2)
		SPDIF Optical Audio-in	One (1) SPDIF port - Supports TV audio output
Ethernet		One (1) Ethernet port	
USB 2.0 Port		One (1) USB 2.0 port (for phone charging / media playback)	
SiriusXM-Ready		One (1) SiriusXM port (Requires optional SiriusXM connect vehicle tuner. Does not support traffic and weather)	
AM / FM		One (1) Motorola antenna connector port	
Speaker		4 x speaker (2 zone amplified)	
RCA Pre-Out (Left, Right and Subwoofer)		4 zones	
Operating Voltage		+10.8V - 16V DC	
DAB+ Ready		Fusion DAB+ module is required (sold separately). Only available where DAB or DAB+ broadcast is supported	
Line Out		4 (1 x L + R per zone. Requires external amplification)	
Subwoofer Out		4 (1 per zone. Requires external amplification)	
Updates		Software Updates	Over-the-air updates via the FUSION-Link app or via USB
