

## GS-500 PRO SERIES OUTRIGGER KIT

### Exclusive Twist & Lock Drop Ship Program

For hardcore anglers, the Pro Series GS-500 Outrigger Kit includes everything needed for high-performance sport fishing day-in and day-out. The heavy-duty GS-500 kit is ideal for larger center consoles from 32' to 50' and up. It also enables rotation and lift of outrigger poles from the safety of the deck. This industrial-strength mount is dredge load tested to handle a full, professional fishing spread for increased catch ratio. The GS-500 pairs exclusively with TACO Carbon Fiber Twist & Lock Tele-Outriggers – eliminating the frustrating task of locating the pin hole and requiring no bolts. The poles also feature TACO's patent-pending 360° swivel collars for a more natural bait presentation. These poles easily telescope to less than 8' for bridge clearance, trailing and storage. Considering the ability of today's larger center consoles to get offshore in more treacherous seas, the heavy duty Pro Series GS-500 is a system designed to take you there. Run your boat as hard as your crew can take it, without fear of equipment failure.

### GS-500 FEATURES & BENEFITS

- Equipped with the patent-pending Twist & Lock mechanism for one-handed, easy, fast and secure outrigger pole installation
- Cast stainless-steel and machined-aluminum body construction for a stronger and lighter base
- Includes matching 6"x 8"x 1/2" thick, oval backing plates for additional support and strength
- Heavy-duty, ergonomically shaped handle for strength and a comfortable grip
- Safety detents prevent uncontrolled rotation when deploying outrigger poles
- Allows a controlled 180° rotation, if needed
- Full-bodied, round crank handle for comfortable, easy rotation of vertical lift from under the T-top
- Crank handle folds flush into base
- Base hole pattern matches all TACO Marine Grand Slam models – making upgrades possible
- 3-year limited warranty

### OT-4200CF-HD FEATURES & BENEFITS

- UV-resistant, clear coated black carbon fiber pole construction
- Stainless-steel Type-316L swivel collars and rings
- Triple outrigger line design on the 20' poles for either mono or Dacron
- Patent-pending Twist & Lock design eliminates the need for pins or bolts
- 1-year limited warranty
