

Vantage PRO2™ INSTALLATION DIAGRAM

Cabled Vantage Pro2™ Plus

This diagram shows an Integrated Sensor Suite (ISS) with UV and Solar Radiation sensors connected to a Vantage Pro2 Console via a cable connection. A cabled Vantage Pro2 Plus system (#6162C) allows for a cable connection of up to 100'. This connection can be extended up to 1000' (300 m) with optional extension cables. Please note that in a cabled system, the Vantage Pro2 Console cannot receive data from any station except a cabled ISS or cabled ISS Plus.
