HOW TO COUNT YOUR STEPS

- Press the MODE button until STEP appears. If the display does not show 00000, press RESET to clear the old data.
NOTE: Resetting the data in any mode will reset Steps to zero.
- Wear your pedometer according to the directions above.
- Begin your activity, your Steps will be counted up to 99,999.

HOW TO TRACK YOUR DISTANCE

- Press the MODE button until MILE or KM appears. Press RESET to clear any old data.
NOTE: Resetting the data in any mode will reset Distance to zero.
- Your pedometer can track Distance in Miles or Kilometers. To change between Miles and Kilometers, press and hold the MODE button for 5 seconds until the LCD flashes once.
NOTE: Changing between Miles and Kilometers will change the displayed mode and clear all of your pedometer's data and settings.

In order to use the Distance mode, you will need to measure your stride length. Refer to those directions below.

- To set (or confirm) your Stride Length, press and hold INDIGLO for three (3) seconds and that value will flash in FT (or cm.).
NOTE: The display will stop flashing if no button is pressed within 5 seconds.
- Press RESET to increment the displayed Stride Length value and press and hold SET when done to return to the Distance mode display.
- Wear your pedometer according to the directions above.
- Begin your activity and your Distance will be counted up to 999.99 Miles (or Kilometers).

HOW TO MEASURE YOUR STRIDE LENGTH

- Find an area where you can walk ten (10) steps in a straight line.
- Mark the starting point and place your foot behind the line.
- Take ten (10) steps or strides copying what is normal for the activity you are doing.
- Mark a line in front of your foot where your last step ends.
- Measure the distance between the two marks in feet (or centimeters).
- Divide this distance by ten (10) to determine your normal stride length.

HOW TO COUNT THE CALORIES YOU BURN

- Press the MODE button until CAL appears. If the display does not show 00000, press RESET to clear the old data.
NOTE: Resetting the data in any mode will reset Calories Burned to zero.
- In order to use the Calories function, you will need to input your Weight in Pounds (LB) or Kilograms (Kg). The Unit of Measure for Weight (English or Metric) will be consistent with what you selected for Stride Length.
NOTE: Changing your Unit of Measure will change the displayed mode and clear all of your pedometer's data and settings.
- To set (or confirm) your Weight, press and hold INDIGLO for three (3) seconds and that value will flash in LB (or Kg).
NOTE: The display will stop flashing if no button is pressed within 3 seconds.
- Press RESET to increment the displayed Weight value and press and hold SET when done to return to the Calories mode display.
- Wear your pedometer according to the directions above.
- Begin your activity and your Calories Burned will be counted up to 99,999 calories.
- In the calorie readout the decimal place will shift as the total calories go through the 1,000 and 10,000 marks. The readout will be shown as follows:
0.00 \cong 999.99 – 1000.0 \cong 9999.9 – 10000 \cong 99999

HOW TO TRACK EXERCISE TIME

NOTE: Resetting the data in any mode will reset Average Speed to zero.

HOW TO TRACK STEP RATE

Your pedometer will provide Step Rate data for your workout in Steps/Minute.

- Press the MODE button until STP/MIN appears.
- Your Step Rate is based upon your Step Count and Exercise Time and is recorded up to 266 Steps/Minute.

NOTE: Resetting the data in any mode will reset Step Rate to zero.

INDIGLO® NIGHT-LIGHT

Your pedometer features the INDIGLO® night-light that allows you to view the display in low-light or dark conditions.

- Press the INDIGLO button and the display will illuminate for 5 seconds.

HOW TO CHANGE THE BATTERY

The display will begin to dim as the battery runs down. Change the battery as soon as you notice the display quality declining. Your pedometer uses a CR2032 (or equivalent) battery available at many electronics stores.

- Slide out the battery compartment to remove the dead battery.
- Replace the dead battery with a new one. Be sure "+" is facing down and the battery is seated firmly in the compartment.
- Slide the compartment back into the pedometer until it snaps in place.
- Dispose of the old battery.

NOTE: Replacing the battery clears all your pedometer's data and settings. You will need to re-input your Stride Length and Weight.

**DO NOT DISPOSE OF BATTERY IN FIRE. DO NOT RECHARGE.
