

The new e-lite Series redefines Surface Mount underwater lighting again!

SMX21

SMX51

SMX101

NEW FOR 2014

Available Colors

Lumishore has introduced the second generation e-lite SMX21, 51 and 101. The new series takes all the incredible features of the previous models SMX20, 50 and 100 and boost the light output 40 to 70% (model dependent) with no increases in power consumption (current draw)!

This means increased light throw providing an even deeper light penetration into the water. Plus all new e-lite models have a 90° beam providing an even glow of light around the hull. The best part, no price increase on the new models!

KEY FEATURES	SPECIFICATIONS	SMX21	SMX51	SMX101
<ul style="list-style-type: none"> Brightest, most efficient, compact LED surface mount lights available, bar none 90° light beam, make the hull glow Corrosion proof polymer design - Chemically resistant to marine growth, no bonding, no painting Low profile and compact - Transom or side mounting Easy installation - Integrated electronics (no external driver) and small hole size requirement 	Fixture Lumens	1,000	2,100	3,200
	Available Colors	White, Blue or Green	White, Blue or Green	White, Blue or Green
	Beam Angle	90°	90°	90°
	LED Power-HICOB Array	Yes	Yes	Yes
	Typical LED Life	50,000+ Hours	50,000+ Hours	50,000+ Hours
	Voltage	12 or 24 Vdc	12 or 24 Vdc	12 or 24 Vdc
	Max Current Draw 12/24 Vdc	1A / 0.5A	1.5A / 0.75A	3A / 1.5A
	Bonding / Painting Required	No	No	No
